ISD-1100

A non-silicone foam based on mineral and synthetic oils that are in water
Dispersed and used in various industries such as oil refining, non-aqueous paints and resins and the production of hydraulic oils

PHYSICAL PROPERTIES

Appearance	Light brown liquid
Chemical base	Mineral oil / silica
Solubility	Soluble in oil and water.
pH	6 - 7
Ionic character	Nonionic
Density	1.01-1.03
Viscosity	300-400 cps

Application & Recommendation

This foam is easily used in water-based industries and does not have an adverse effect on the desired product.

Storage and packing

Consumption of this product varies between 0.1 to 0.5% and is proportional to the consumption. It is recommended at a temperature of 10 to 20 degrees indoors and away from sunlight. The storage time of this product in powder products is at least 12 months and liquids at least 6 months.
