

ISD-800

Anti-Foam ISD-800 is a fully Non-Silicone defoamer based on mineral oils which is designed to be used in industries such as aqueous & non-aqueous paints and coatings, printing colors and inks.

PHYSICAL PROPERTIES

Appearance	Light brown liquid
Chemical base	Mineral oils and surfactants
Activity	100%
Viscosity (25°C)	200-1000 cP
Packing	100kg drums or 1000 kg IBC tanks

Application & Recommendation

ISD-800 can be used as received or may be prediluted in water. The diversity in application of ISD-800 makes listing of specific concentration of all the uses very difficult. Dosage of consumption varies between 0/1-0/3 %

Advantages

- Provides rapid foam knockdown
- Dispersible in water to give emulsions of moderate stability
- High efficiency for maximum economy
- Effective in acidic or alkaline systems
- Long lasting efficiency
- Stable under adverse pH conditions
- Non silicone based
